## 3<sup>rd</sup> Credit Transfer System Capacity-Building Workshop

ASEAN Secretariat, Jakarta, Indonesia  
13-14 March 2017

---

### RATIONALE

#### Main objectives of this event:

- Improve the process and better prepare mobility batch 3:
  - Reviewing commitments of universities and stakeholders;
  - Collecting feedback on the mobility tools used so far;
- Overcome possible barriers to mobility recognition and credit transfer
- Work on learning outcomes as key components of a common/regional Credit Transfer System:
  - Describing study programmes;
  - Describing course units;
- Operate with the online platform to build transparency in the mobility process.

The workshop is a unique chance to meet different practitioners and experts, to share perspectives and experiences, and to build institutional capacity in implementing the mobility tools and the SHARE online Platform for an effective and robust mobility and exploit their potentialities for higher education quality purposes.

At the end of the workshop, the participants should be able to:

- Improve their practice on the use of the mobility tools;
- Use a learning outcomes-based approach in the designing of study programmes and their components;
- Overcome the national and university constraints as to recognition and credit transfer issues;
- Associate learning outcomes with a trust-building system;
- Take advantage of the potentialities of the SHARE online Platform to build an easy-to-use course catalogue and to build a seamless mobility process.

## About SHARE

European Union Support to Higher Education in ASEAN Region, or SHARE, is funded by the European Union in cooperation with the ASEAN Secretariat. SHARE is being implemented by a consortium led by the British Council, Campus France, the German Academic Exchange Service (DAAD), EP-Nuffic, the European Association for Quality Assurance in Higher Education (ENQA) and the European University Association (EUA) from 2015 to 2019. The programme has the broad remit to strengthen regional cooperation, enhance the quality, competitiveness and internationalisation of ASEAN higher education institutions and students, contributing to an ASEAN Community beyond 2015. SHARE's work can be grouped in five result areas:

- Policy Dialogues (PDs): in support of harmonization of higher education in the ASEAN region with policy-makers as well as technical specialists.
- Qualifications Frameworks (QFs): supporting the implementation of the ASEAN Qualifications Reference Framework (AQRf) and the development of National Qualification Frameworks. This will be mainly done by a series of national seminars, subsequent regional policy dialogues and trainings, focusing in particular on higher education.
- Quality Assurance (QA): fostering the ASEAN QA Framework (AQAF) at regional/national levels through a combination of European-ASEAN expert dialogue, framework development, dissemination workshops and capacity development.
- ASEAN Credit Transfer System (ACTS) & ASEAN-EU Credit Transfer Systems (AECTS): The existing Asia-based credit transfer systems (CTS) will be mapped, providing needs identification of ACTS and AECTS and support HEIs to implement them. The method and instruments for CTS will be designed and include development of a common platform for online credit transfer, ACTS/AECTS will then be piloted via this common platform, and results and impact will be evaluated.
- ACTS & AECTS Student Mobility with Scholarships: Scholarships will be provided to boost mobility between ASEAN countries and with Europe and test the AECTS and ACTS, a promotion and outreach strategy will be developed and delivered in collaboration with selected HEIs, and a Monitoring and evaluation (M&E) of the scholarship scheme will capture the experience of students and home/host HEIs, especially in A(E)CTS.
